

ORGASMIC BIRTH

The Best-Kept Secret

Genre: Documentary/Parenting and Childcare

Age Range: Pregnancy / Pre-Natal

Fullscreen Not Rated Run Time: 85 min

Enter the world of undisturbed birth as 11 couples share their intimate personal journeys, facing their fears and moving through pain into the ecstatic release of childbirth.

Orgasmic Birth poses the ultimate challenge to our cultural myths. With commentary by a dozen internationally renowned birth experts, including Dr. Christiane Northrup, Ina May Gaskin, and others, this gripping film reveals a revolutionary approach to birth that is statistically safer for both mother and child than the birthing and delivery methods that are standard in many parts of the world today.

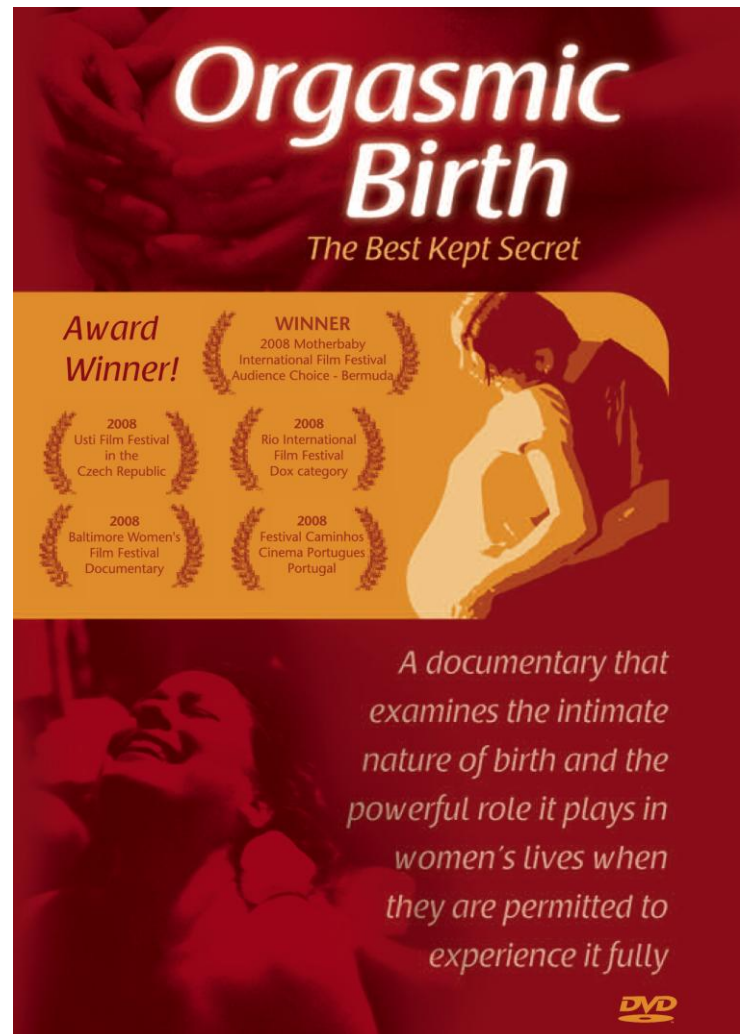

"Watch this film and get in on the world's best-kept secret: labor and birth can be pleasurable-even ecstatic. Better yet, pleasurable birth enhances the health of both mother and baby and creates a positive foundation for a lifetime."

-Christine Northrup, MD, FACOG

Author, *Women's Bodies, Women's Wisdom* and *Mother-Daughter Wisdom*

The evocative score for the film was created by John McDowell, composer of the score for the Oscar-winning documentary *Born Into Brothels*, with additional composition by Sabina Sciubba of the group Brazilian Girls.
