

BabyBabyOhBaby

Bonding with you brilliant and beautiful baby through infant massage

Genre: Documentary/Parenting and Childcare

Age Range: Newborn through 10 Months

Widescreen Not Rated Run Time: 45 min

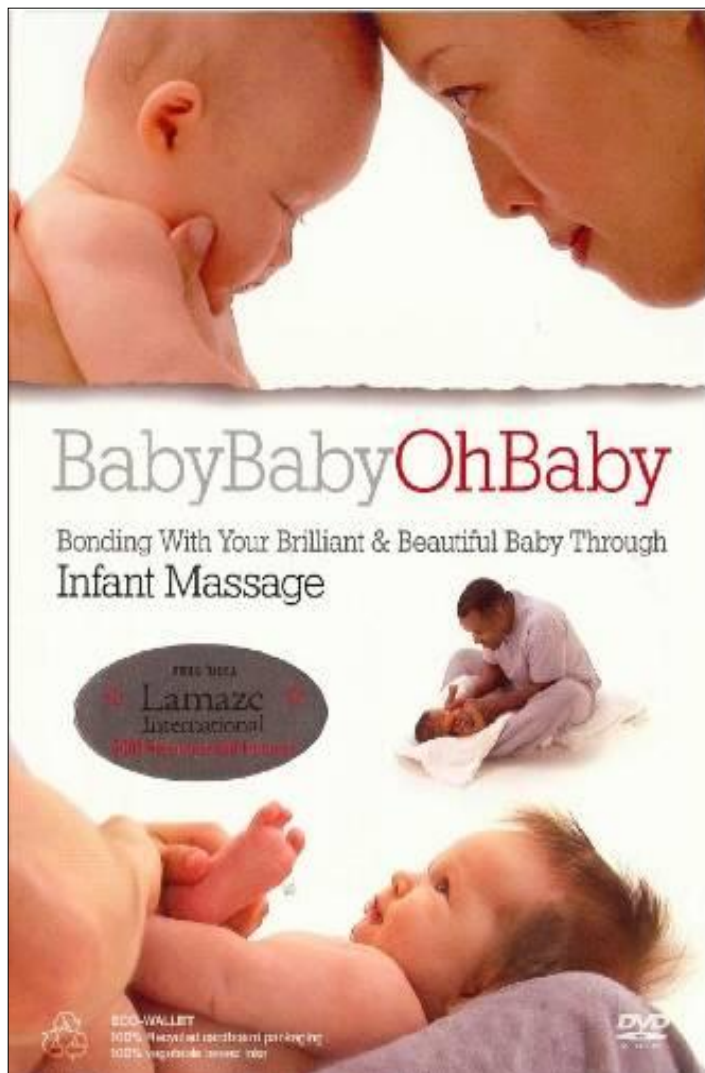

Infant massage is not new. We're guessing it came along about the time mothers and fathers held their first baby. But it seems that all over the country people are beginning to have a lot to say about the subject. We believe this DVD is the best ever produced on this subject. Massage is a gift that can last a lifetime, building and reinforcing confidence and trust, and showing your brilliant and beautiful baby in the most immediate and meaningful way possible just how much you love them. And after all, in this busy world, what's more important than that?

BabyBabyOhBaby! Is an official selection of Lamaze International, is recommended as a "must-have" by maternity centers and childbirth educators throughout the U.S. and also used by many social service agencies to help teach parents how to interact in a gentle, loving way.

The BabyBabyOhBaby! DVD is an entertaining and informative introduction to infant massage, providing a step by step guide with chapters devoted to each part of the body, easy to follow demonstrations, and "real world" examples of mothers and fathers practicing these ancient techniques with their own babies.

It also features optional tracks with soothing music and images, but no instructional track for those who wish to use it on an ongoing basis as a comforting tool and no longer require instruction.

This DVD comes packaged in environmentally friendly "Eco-Wallet" packaging.

\$25.99 (gift wrap w/gift card available, just \$4.00)

"BabyBabyOhBaby" is a heartfelt 45 minutes of soothing music and giggling babies for your learning pleasure. This DVD is perfect for anyone wanting to familiarize themselves with the magic of infant massage."
